# Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

12th December, 1930.

Dear Sirs,

Your cablegram of the 5th November respecting the steamer "SEIYO MARU" duly came to hand and I have now received your letters of the 6th and 20th ultimo respecting this case.

The Committee are pleased to note from your latter letter that payment of the outstanding fee for the survey held in February last has been made by the Owners and they have today had under consideration the <sup>press</sup> reports which have been received from San Francisco regarding the abandonment of the vessel in the North Pacific, together with the copy of the newspaper cutting forwarded by you. In all the circumstances they have decided to make a record of casualty, and the notation of "Abandoned at sea 11,30" will now be posted against this vessel's name in the Society's Register Book.

The Owners are being informed accordingly.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,

KOBE.
