

COPY.

1st March, 1906.

Gentlemen,

With reference to the statement in Mr. Milton's first entry report No. 6031 on the new twin S.S. "NIEUW AMSTERDAM" that the ceiling has been fitted under the hatchways and over the limbers only, I have to request that he will be good enough to state whether this is in accordance with the specification agreed to by the Owners.

At the same time I have to remind you that in my letter of the 26th September last on the subject of ceiling, you were requested to specially mention on the first entry report the terms of the specification in regard thereto.

I am, Gentlemen,

Your obedient servant,

pro Secretary.

The Surveyors,

BELFAST.
