

Belfast

22nd February 1856

S. J. Milton

The Owners attend on board
the Twin Screw Steamer *Queen Amsterdam*
(Messrs Garland and Coops No 306) when
she was sitting out at the Victoria
Wharf Belfast, on the 7th February 1856
and other subsequent occasions to test
the side lights in the hull of the
said vessel, and found the whole of
them to be watertight and in good
order under water pressure.
