17, BATTERY PLACE,

NEW YORK.

September 25th, 1928.

Dear Dr. Montgomerie:-

I had a call from Mr. Marley of the Standard Shipping Company of this City, and who is the Editor of their Bulletin.

He informed me that he had met you in London recently, and that you would like to know, for your own information, the draft of the "CHUKY" before she left on her last voyage.

I am informed that the vessel's draft forward was 28'5", aft 28' 0" or a mean of 28'2½". This is 17½" over the draft given in the Register Book.

Trusting you are well, and with kindest regards.

Yours very truly,

*M. Bennett*

James Montgomerie, Esq., D. Sc.,

LONDON.
