

C. 211.

Sub Mt. No. 15901  
of Highland Glen

Liverpool

29<sup>th</sup> June 1910

William Sibson

the Liverpool Engineering and  
Construction Co., Ltd. at their  
first water main No. 1776, intended  
for Meers' main in Blackmore's  
No. 293.-

The shell was tested on the 10<sup>th</sup> in.  
by hydraulic pressure to twenty-five  
pounds (25 lbs) per square inch, and  
the coils on the 20<sup>th</sup> in. to four  
hundred and twenty pounds (420 lbs)  
per square inch, and both shell and  
coils found good at the respective  
pressures.-
