Lloyd's Register of Shipping.

Port DAIREN No 4874

January 31st, 1934.

This is to Certify that

John Sim

the undersigned Surveyor to this Society did at the request of

Messrs. Corns, Bokford & Winning, Lloyd's Agents at Dairen, on behalf of Messrs. Yamashita Kisen Kaisha, Dairen, attend on board the S/S "KAKO MARU" of Tokio, on January 28th and subsequent dates as she lay at the Jijimo Pier to test, examine and report on the Port & Starboard after Deep Tanks being conditioned for the purpose of carrying two shipments of Bean Oil in bulk for Europe.

On the vessel's arrival the above mentioned tanks were filled and tested by head of water to upper deck, tank top, bulkheads, thrust recess, tunnels and fittings examined, oiled as required and passed tight.

After the water had been discharged the tanks were examined internally and found to require scraping, wire brushing, sweeping up, wiping over, touching up in place, washing out with Bean Oil and finally wiped over with clean waste.

The double bottom tanks under the deep tanks were filled and tested by same head, examined and passed tight.

After several visits the tanks having been cleaned as recommended by me were passed fit to load on January 30th, 1934, at 10.- a.m.

I hereby certify that the Port & Starboard After Deep Tanks of the S/S "KAKO MARU" of Tokio, were clean and free from paint, rust, scale, residue and moisture and in good condition and fit to receive 2 shipments of Bean Oil in bulk for Europe, all bilges and tank suction having been blanked off.
