

"KIL" CLASS PATROL BOATS.

Plans have been approved for the conversion of several of these vessels to carry cargo. It is now proposed by Messrs. The Shields Engineering Co. to convert the S.S. "KILDALKFY" and "KILFRNORA" into whale oil carriers.

A plan in duplicate has been received from the Newcastle Surveyors shewing the arrangements of scantlings of tanks proposed.

It is submitted that provided the alterations be carried out as shewn and amended on the plan and to the satisfaction of the Surveyors, the same will merit approval.

The plan to be retained in this office for reference.
