

Extract from endorsement with Defence Report

s.s. "KENILWORTH CASTLE".

With regard to the Freeboard Certificate for the voyage from Southampton to Blyth, it is concluded that the voyage will be made in the light or ballast condition.

In these circumstances the Surveyors should make a general examination and should issue a provisional Certificate on form 10 giving a freeboard corresponding to the draught at which the vessel will sail, and this Certificate should be made valid for the contemplated voyage only.

They should forward a copy of the Certificate to this Office, together with form C.11(c), suitably amended, and Rpt. C.12(a).
