

particulars of Casualty  
The 2nd Special Survey No 3 became due in

Steamer "FOTINI CARRAS".

-----

Notification has now been received from the Registrar General of Shipping that this vessel has been granted a provisional British Certificate as from the 29th April, 1935, and her name changed to "HILLCOTE". The registered Owners are Messrs. P. Wigham Richardson & Co. Ltd.

8/6/35

In normal circumstances the vessel would have been inserted in the Register Book under her new name, but in view of the special circumstances of the case (casualty record etc.) instructions are desired as to the procedure to be adopted.

It is suggested that for the purpose of "continuity of record" some reference should be made in the Register Book to the vessel's change of name, irrespective of whether her particulars are to appear in the new edition of the book or not.
