Periodical Surveys, when held, must be reported in detail and serially in the terms of the Rules. State clearly the cause of Repairs, if any, and, in detail, the nature and extent of Examinations and subsequent repairs. Repairs, account of Damage (the cause of which must be stated) should be separated from Repairs due to other causes; and besides being detailed in the body of the report, should be summarised in the form shown below. Whenever the placement of Anchors or Chains is reported, the particulars should be clearly stated in the space provided on the back of this form. State also the dates and initials of any letters respecting this case.

Damage cases where the Surveyor has not made a special damage report he is required to state whether he offered his services for this purpose and to whom and why they were declined? \_\_\_\_\_ Was a damage report made by anyone else? If so, by whom? \_\_\_\_\_

PAIRS, OR EXAMINATION AS PER RULE, FOR *Seaworthy Certificate.*

Low done:- Vessel placed in dry dock bottom and rudder scraped free of marine growth and examined.  
The indented shell plating mentioned in Newport chon. Surveyors report of June 1920 examined and found to continue efficient (Port FI, L3, Serial C394).  
It was stated by Messrs D. G. Pinkney's representative that the vessel is proceeding to Rotterdam where she would be dry docked and submitted to classification survey.  
Rotterdam surveyors should be advised.

Bottom not coated.

General Observations. Opinion as to Class, Recommendation, &c.:—

State clearly whether any and, if so, what alteration is suggested to be made in the existing classification and notification of the vessel in the Register Book consequent upon this survey, thus, for example:—".....to remain as now classed in the Register Book *without fresh record of Survey*," "to remain as classed and to have record of survey, 1,15," or "to remain as classed and to have record of survey, 1,15, and the notations of ss No. 1-15 and ptND15, &c."

This vessel is, in our opinion, in a fit condition to proceed to Rotterdam where it is understood she will be submitted to survey with a view to classification in the Society's Register Book
