Messrs. The Liverpool Engineering & Condenser  
Co. Ltd. examining and test at their  
works, on the 15<sup>th</sup> April, 1907, an evaporator  
(Ruggies patent) No 665 - intended to be  
fitted to Messrs W. Beardmore & Co. Ltd.  
engines No. 491.

The above evaporator was, in the  
presence of the undersigned, subjected  
to hydraulic pressure - the shell to  
fifty pounds (50 lbs) and the coils to  
three hundred and eighty pounds (380 lbs)  
per square inch - and under these  
pressures were found satisfactory.
