ENGINE FORGINGS OR CASTINGS

I have to report that the Iron or Steel Forgings or LIVERPOOL.
manufactured by the Liverpool Engineering and Condenser Co. Ltd
for the Engines No. 421 being constructed by 1st March 1907
of the SS Junia for the Ship No. 1000 being built by

have been inspected by me as set forth below, and found to be, so far as can
be seen, correct
Richard Hirst and James Carnaghan.

SS Junia

The Liverpool Engineering and Condenser Co. Ltd examine and
test at their Works the shell and coils of a feed heater for
Engines No. 421. Beardmore & Co's No 421 engine. In the presence
of the undersigned the shell was subjected by hydraulic pressure
CRANK SHAFT

Four hundred and sixty (460) pounds per square inch on
material. 13th February 1907, and the coils to Four hundred (400)
pounds per square inch, on the 1st March when both were found
right and satisfactory at these pressures.

Dates when
inspected

21 & 1st March

PARTICULARS OF TESTS APPLIED

Richard Hirst
James Carnaghan
