Dear Sirs,

s.s. "LONSDALE".

We intend to have the annual Boiler and Load Line Surveys held in the Bristol Channel during the first half of November, and trust this will be acceptable to you. I will advise you the name of port later.

We held the surveys last year on the 28th August which was rather early as I am advised that they should date from December 1935, when the steamer passed a Special No.3 Survey.

Yours etc...

BOILER SURVEY due 8,38.
