Received by Chief Ship Surveyor

Received from Chief Ship Surveyor

VESSEL'S NAME

Steel S.S. "T.H. SKOGLAND".

Rpt.

Ham.

No. 14680a.

The remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

Nature of Survey

It is submitted before this case receives consideration the Surveyors be requested to state whether:- The deep tank has been examined ~~and tested~~; they have specially examined the riveting of the butts of the side and bottom shell plating; they have satisfied themselves regarding the pillaring arrangements and construction of the cargo doors; the thickness of the centre girder and ^{of the} shelter deck plating in way of the openings are as approved; the anchors and chain cables have been tested by Surveyors to the Germanischer Lloyd; they are correct in stating the chain cables have not been ranged in view of the particulars of tests etc., being entered in the First Entry Report.
