"Shipyard," Londonderry.

Londonderry, July 31 1902

LLOYD'S REGISTER  
LONDON.

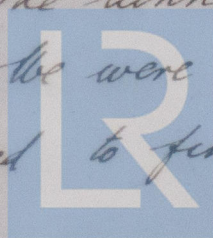

REC'D 2 AUG 1902

Dear Sirs

"Barone Edmondo Vay"

We regret that a portion of the  
tunnel of above vessel was not  
tested by your Surveyors at  
Glasgow. We arranged for your  
representative to visit the vessel,  
but in the interim the owner  
obtained permission from us  
to load his vessel on conditions  
that No. 4 hold was not loaded  
until the tunnel had been  
tested. We were very much  
annoyed to find that the

we could not complete the testing.

W. H. DE RUSETT,  
MANAGING DIRECTOR.

Telegraph Address,  
"Shipyard," Londonderry.

Londonderry, 190

stevedore did not carry out these instructions, so that N<sup>o</sup> 4 was partly filled with coal when your representative arrived.

We very much regret this and may we ask if you will be good enough to overlook this testing under the circumstances as most of the tunnel had been tested before the vessel our premises but owing to the 2 plates left loose for shipping the shafting we could not complete the testing. Trusting you will favourably consider this.

Yours faithfully,  
W. H. De Russett  
Managing Director
