

Anglo-American Twin Screw Motor Tanker "OSAGE".

---

A plan of the new motor seating proposed to be fitted to this vessel for the Bolinder sem-Diesel Twin Screw Engines was approved on the 19th instant.

Mr. Wilson, the Owners' Chief Superintendent, has called at this Office to discuss the plan of this motor seating, and to meet the Owners' views a few amendments have been agreed to.

It is submitted that provided the arrangements be carried out as shewn and amended on the plan, and to the satisfaction of the Surveyors, the same will merit approval.

Two new plans have been handed in, and it is further submitted the Newcastle Surveyors be informed and one copy of the plan forwarded to them, the other copy being returned to the Owners as quickly as possible, as desired by them.
