

PUMPING ARRANGEMENT Endorsement.

W71-0114

Shipbuilders: Messrs. SWAN, HUNTER & WIGHAM
Engineers: Messrs. " RICHARDSON, LTD;

Yard No. 1569

Engine No. 1624

Owners: Messrs.

It is submitted that the ^{diagrammatic} plan of Oil Fuel Purifying System
~~Pumping Arrangement~~

merits approval, provided the arrangements be as
shown and amended on the plan and the remaining
requirements of Sections 20 and 31 of the Rules (1938-9)
be complied with so far as they are applicable.

It is concluded that the size of the transfer
pump discharge to the oil fuel gravity tank will not
exceed 3" in bore, but if this be not the case, the
capacity of the drain and overflow tank should be
increased.

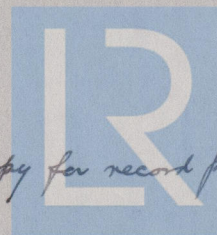

Return 1 plan.

Retain copy.
