

W11-0142

S.S. "VORWAERTS", Austrian Lloyd's No. 97.

Equipment No. 55822, letter "b".

The Trieste Surveyors state that the following anchors have been supplied to this vessel, viz:-

	cwt.	qrs.	lbs.
1st bower anchor (stockless)	72.	1.	8.
2nd " " (including stock 13 cwt. 2 qrs. 24 lbs)	68.	0.	27.
3rd " " (stockless)	66.	0.	15.
Collective weight	206.	2.	22.
Stream anchor (ex stock)	20.	3.	18.
Kedge " "	8.	3.	0.

The anchors required by Table 22 are as follows:-

1st bower anchor (stockless)	72.	2.	0.
2nd " " (including stock)	72.	2.	0.
3rd " " (stockless)	62.	0.	0.
Collective weight	207.	0.	0.
Stream anchor (ex stock)	20.	2.	0.
Kedge " "	9.	0.	0.

It will be observed that the collective weight of the three bower anchors supplied is only 34 lbs., less than required by Rule. The kedge anchor is 28 lbs., less than required but the stream anchor is 46 lbs., in excess.

It is submitted in view of the deficiencies in the weights of the anchors being but slight, the same might be approved for the figure 1.
