DRY DOCK, 180 FEET LONG x 40 FEET AT GATES.

*North Shields,* May 3rd. 1907.

L. G. Challers

C/O Lloyds Surveyors,

NEWCASTLE.

Dear Sir,

Re. S/T "SWAN"

We are in receipt of yours of May 1st, and we note that you will not be able to give the report of classification of this vessel, until the sea cocks & valves have been examined in Dry Dock.

We have however seen the Owner who is extremely anxious to have the vessel without further delay, and he is quite willing to accept the vessel and will give you facilities for examining the bottom when on the Slipway at Fleetwood on some future occasion.

If you wish to get a letter from him on the subject, we will do so.

Yours truly,

FOR THE SHIELDS ENGINEERING & DRY DOCK CO. LIMITED.
