9th. May, 1907.

Messrs. The Shields Engineering Co. Ltd.,  
N O R T H     S H I E L D S .

Gentlemen,

Confirming Mr. Shallcross's conversation and letter, we beg to inform you that the machinery has been reported as eligible for classification when the fitting of the sea cocks and valves and stern tube have been examined in dry dock and reported by a Surveyor to this Society as satisfactory.

When it has been definitely decided where and when the vessel is to be dry docked, we should esteem it a favour if you would kindly let us know so that due notice may be given to the Society's Surveyors.

Thanking you in anticipation,

We are, Gentlemen,

Yours faithfully,

pro the Surveyors,
