27th September, 1920.

H. Dear Sir,

With reference to New York report No. 17896 on the steamer "WESTERN FRONT", I have to acquaint you that the Society's Surveyors at Antwerp reported in May last that they had examined the turbine reduction gears of this vessel and recommended that they should be again examined on the vessel's arrival at Savannah. It is observed that she arrived at New York on the 5th July last and in the circumstances I shall be glad to learn what action has been taken in the matter.

I am, Dear Sir,

Yours faithfully,

Secretary.

The Secretary,  
NEW YORK.
