2,16. Port of Registry London.
LMC. 3,12.
N.T.S. 7, 15.

Special Survey No. 1. due March 1916.

A proposal of the Owners to have the above survey held early this year was agreed to by the Committee early in September last. In February the Owners wrote the vessel was on her way home and they hoped it would be possible for them to have the survey carried out in about five weeks time and the Committee agreed to this proposal.

The Owners now write it has been arranged that the vessel is to load for the River Plate and the Government advise them that on the completion of her discharge she will be required to bring a cargo home on their account. In the circumstances, P.T.O.
