

S.S. "VOLTURNUS".

-----

This vessel was built at Workington and launched on the 27th November 1912. She proceeded to Glasgow where her machinery was fitted, and the survey on the hull completed by riveting up of the engine and boiler casing after the machinery was shipped.

The report of the completion of the survey on the hull gives the date of the last visit as the 24th December 1912, but the survey of the machinery was completed on the 14th January 1913.

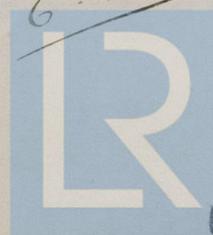

The Owner writes that he has received the classification certificate for the hull of this vessel and finds it is dated 24th December 1912. He states the vessel was only handed over to him on the 15th January 1913 after the Surveyor's final inspection, and asks if the certificate can be dated 1913.

It is submitted that in the above circumstances <sup>and survey.</sup> the date of build may be amended to 1 mo. 1913.

Fri. 7 Feb. 1913.
