

REPORT of SURVEY for REPAIRS, &c.

Writing Report 17<sup>th</sup> Oct 1907 When handed in at Local Office 17<sup>th</sup> Oct 1907 Port of Newcastle  
Survey held at Newcastle Date, First Survey 9 Last Survey 17<sup>th</sup> Oct 1907  
Book on the Wood, Iron or Steel Re Lr "Snowdonian" Master

TONNAGE:- Built at Stockton By whom Richardson Duck & Co When 1907  
ROSS 2850 Owners O & W Williams Port belonging to Cardiff  
UNDER DE Owners' Address  
ET (if not already recorded in Appendix to Register Book.)

Surveyed Afloat or in Dry Dock Name of Dock Stephenson Destined Voyage  
B=CellDBorDBa feet; uE&B feet; f feet; f  
al capacity tons. FPT tons; APT tons; MT feet tons. Particulars of Classification (which must be inserted precisely as in Register Book & Supplements).

N.B.—All alterations in the existing records should be underlined.  
If the vessel has Water Ballast Tanks, state whether the manhole covers have been removed, and the insides of tanks examined. Also state the amount of deterioration (if any) found in the thicknesses of the floors, framing, keels, and of the inner bottom plating, especially in the boiler space.

Last Report, No. Port (Class contemplated)  
Medical Surveys, when held, must be reported in detail and serially in the terms of the Rules. State clearly the cause of Repairs, if any, and, in detail, the nature and extent of Examinations and subsequent Repairs. Repairs account of Damage (the cause of which must be stated) should be separated from Repairs due to other causes; and besides being detailed in the body of the report, should be summarised in the form shown below. Whenever the replacement of Anchors or Chains is reported, the particulars should be clearly stated in the space provided on the back of this form. State also the dates and initials of any letters respecting this case.  
Society's Freeboard (if assigned) as painted on Ship and now verified ft. ins.

damage cases where the Surveyor has not made a special damage report he is required to state whether he offered his services for this purpose, and why they were declined?  
also whether any damage report was made, and, if so, by whom?

REPAIRS, OR EXAMINATION AS PER RULE, FOR Condition of bottom after launching.

It was anticipated that this vessel's bottom may have suffered damage at fore end as a result of the launching. It has now been examined in dry dock & was found to be in good condition, excepting three small indentations in No 3 plate of B strake Port side, which have now been faired in place.

General Observations, Opinion as to Class, Recommendation, &c.:—  
State clearly whether any and, if so, what alteration is suggested to be made in the existing classification and notification of the vessel in the Register Book consequent upon this survey, thus, for example:—"to remain as now classed in the Register Book without fresh record of Survey," "to remain as classed and to have record of survey, 1,98," or "to remain as classed and to have record of survey, 1,98, and the notations of ss No. 1-98 and ptND98, &c."  
This vessel's bottom has been examined in dry dock, & as regards the condition of the bottom, the vessel appears to be worthy of the class contemplated.
