LLOYD'S REGISTER OF SHIPPING,  
OREGON BUILDING

PORTLAND, OREGON. October 17, 1917.

The Secretary,  
Lloyd's Register of Shipping,  
17 Battery Place,  
New York City.

LLOYD'S REGISTER  
NEW YORK  
REC'D OCT 23 1917

ANS'D

Dear Sir:

I have sent under separate cover First Entry Report on the "WAR BARON", Northwest Steel Company's Vessel No. 1. I regret that the Report does not contain the Tonnage Measurements but as that matter is still under consideration I have omitted the first figures given me by the Custom House of 6239.76 tons Gross. This figure I am of the opinion is wrong and I called the attention of the Custom House people and the Northwest Steel Company to this.

As the fees are based on these figures this is also omitted.

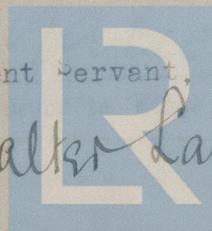

We never received the Authorization for Special Survey and I am of the opinion that perhaps it was sent to Captain Veysey. I mentioned this to Mr. French last year.

Mr. Murray, yard manager of the Northwest Steel Co., stated lately that the figures of Capacity of Tanks may have to be revised as he thought some errors had crept in. I regret this Report is so late but I was holding it up till the figures mentioned were adjusted.

I am, Sir,

Your obedient Servant,

WL/P
