

71, Fenchurch Street,

4. Jan. 1915

f boiler forwarded

s/s "Stock Force"

It is submitted that the Hull Surveyors should be requested to state the area of the safety valves, & also whether they are correct in reporting the area of fire grate as $15\frac{3}{4}$ sq. ft. whereas the plan of the boiler shows it as being 75.75 sq. ft.
