Dear Sir,

FERRO-CONCRETE AUXILIARY SCHOONER "VIOLETTE"

We have perused your letter of the 11th and 17th instant addressed to Messrs James Pollock & Sons, also copy of your report on this vessel dated the 8th instant.

Referring to your letter of the 11th inst. we note you state that the Committee have recommended that a record of "In port - damaged 1-21" be inserted in the Register Book against the vessel's name and that the vessel's class should, at the same time, be expunged from the book.

Are we to understand that you consider it impossible that this vessel could under any circumstances be repaired to the satisfaction of your Surveyors and her old class retained?

As we represented Underwriters in this case you will realise the importance of a definite statement on the matter.

A reply at your early convenience, will

oblige,

Yours faithfully,

Casebourne & Co
