REC'D 11 FEB 1921

NSD 14 Ack 11. lib

M. V. "VIOLETTE"

In this case we are representing the
Underwriters.

The vessel is now in the Britannia Dry
Dock, and has been examined by your Surveyors, but
we understand that no recommendation with regard to
the repair of concrete will be made until the case
has been discussed with your Committee.

As we are anxious to complete the specification
for the repair of this vessel, to retain your class, we
would be obliged if your Surveyors would attend with
us as early as possible, and advise us as to their re-
quirements for the repairs. The vessel has now been
in dry dock some time and the delay is incurring consider-
able expense.

Yours faithfully,

Casebourne & Co.
