Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

16th April, 1920.

Sirs,

With reference to your letters of the 14th
January and 7th instant respecting the S. S. "SECTORIEUX"
I am directed to state that the equipment of anchors at
present on board this vessel and proposed to be supplied will be
approved for the figure "1".

With regard to the 150 fathoms of chain
found on board, and which cannot be properly
certified, I have to state that this cannot be approved
unless satisfactory proofs of the testing of the same can
be produced or the cable be now satisfactorily tested.
If this be done, additional stud chain cables should be
provided to make the cable equal in length to the Rule
requirements.

The remaining equipment should be in accordance
with the Rules Table 31, equipment letter "Y".

Surveyors,
ROTTERDAM.

I am, Dear Sirs,
Yours faithfully,

Secretary.
