s.s. "HEWITT", N.Yk. 19546. I have to point out that the approved plans in connexion with the alteration from coal to oil burning do not appear to have come to hand, and I shall be glad to receive these as soon as possible.

In view of the fact that the boiler survey became due in September 1920, and that the vessel was under survey from the 18th September to the 9th November, it is not understood why the opportunity was not taken to carry out this inspection, and I shall be glad to know what arrangements have now been made in regard to this survey.
