The Surveyors,

Lloyd's Register of Shipping,

17 Battery Place,

New York, N. Y.

Gentlemen,-

Referring to the steamships "Atlantic" and "Pacific", hulls Nos. 224 and 225 under construction with the Fore River Shipbuilding Cor., Quincy, Mass., we beg leave to direct your attention to the arrangement of scantlings plan, recently submitted to you by the builders for approval.

To meet the requirements of the trades in which these vessels will be operated, it was necessary for us to arrange the vessels with one transverse bulkhead less than required by the Rules, and we request that the number and locations of bulkhead shown be in this instance approved.

Yours truly,

EMERY CONSTRUCTION CO.

John S. Emery
President
