

Manchester.

November 5th 1917.

L. L. L. Chalmer

The British Admiralty, asked at the workshop of
Messrs. Barclay Brothers of Manchester, Manchester, on
March 12th 1917 for the purpose of
inspecting, during construction, portions of the machinery
to be fitted on board the "Mersey" class destroyer
"Hawker" being built by Messrs. Barclay & C^o & by their
agent, Messrs. 821 and 822, N.C. 16.

The main engines & pumps driven by them together with
the boiler & machinery shafts, "Hawker" block & stern tube
are well constructed in accordance with the plans
as submitted, the material used having been
checked & tested to the full requirements of
the Admiralty & the Admiralty.
