Your letter of 28th. October last was duly received respecting
Report N°33 on the Aux. Twin Screw 4 Masted Schooner "VERDUN".

I regret that I allowed the plans of this vessel forwarded here
by letter of 16th. September to pass out of the Office, but at that
time I could see no other way of giving the repairing firm at T6-
can the necessary information they required for reconstruction of
the vessel.

In future all similar plans will be retained in the Office.

I am returning to you under separate Registered packet the four
working plans sent here together with First Entry Report.

From information received I understand the whole matter is in
obeyance and it is very possible the vessel will not be reconstructed

Yours faithfully,

Referred to the Chief Surveyor.
