

Messrs. Cochrane Sons & Co. N.Y. No. 590.

Submitted Messrs Fellows Bros he
informed that as the ~~total~~ weight of this
anchor is $6'' 0'' 24$, the weight of the head
is required to be $3'' 2'' 25$ being $\frac{3}{5}$ of this
total weight. As the head is 19 lbs light,
and is about 5% to, it cannot be accepted
as the figure 1 for equipment.
