No 1-23

2nd Special Survey No.2 due July, 1927.

Action in this case has been deferred by the committee from time to time in view of the fact that the owners had under consideration the question of re-engining the vessel.

In reply to further enquiry the Owners now state that they have been so overwhelmed with other work that they have not been able to give fair consideration to the above case. They add that they are now going into the matter, and they trust that the Committee will agree to defer this inspection for a few weeks until some decision regarding the machinery is arrived at.

Minute FEB. 3 FEB 1928 Submitted action might be deferred
