

K.B. s/s. "Monitoria"

It is submitted that as this vessel is building to class with the B.C. as well as with this Society the testing of the cast steel anchor heads, which has been done at the works of Messrs Otto Frison & Co. of the Linneymen to the British Expedition, may be approved of in this instance as the vessel is now complete, provides the results of the test are in accordance with the Society's requirements.

The builder should be informed that it must be distinctly understood that this case is not to be taken as a precedent.
