7. 13. *+ Feb 6. 11.* Port of Registry *Grimsby*

due screw shaft survey due June 1913.

In July last the Committee agreed to this inspection being postponed for six months.

In reply to inquiry the Grimsby Surveyors stated on 7th February that it was proposed to dock the vessel in month's time, when the shaft would be examined. This arrangement was also approved by the Committee, subject to the survey then being held without fail.

The Grimsby Surveyors now state the Owners propose docking the vessel in the early Summer, when the requisite inspection will take place.

Submitted for approval.
