

S.S. "New Crown"

Examined decks & casings, hatch ways and hatches, masts and rigging windlass, steering gear, cables ranged and equipment, hand pumps, water tight door.

Freeboard verified.

The bulk head between cross and side bunker, port side, re-riveted to frame.

The decks caulked throughout.

A new coaming and cover fitted on casing top over safety valves.

Boats repaired.

The surface of the lining in the fish room is sound but some grounds in lower part are somewhat decayed.
