Lloyd's Register of British & Foreign Shipping,

71, Fenchurch Street, E.C.

10th February, 1911.

Gentlemen,

I duly received Mr. Wilson's letter of the 3rd instant enclosing particulars of the composition of Harlocks Bituminous Cement proposed to be used in the new steamer "HULL TRADER" now building by Messrs. Cochrane & Sons, and the piece of plating coated with this cement has also come safely to hand.

The sample forwarded shows the cement adhering satisfactorily to the plate, and I am directed to state that in the circumstances this cement will be approved in the present instance subject to a biennial examination as required by the Society's Rules.

I am, Gentlemen,

Your obedient servant,

The Surveyors,

HULL.

Secretary.
