

Shipbuilders: Messrs. *Swan Hunter & W.R., Ltd.* Yard Nos *1580+1582*
Engineers: Messrs. " " " Engine No.

It is submitted ~~that the plan of~~ the Newcastle Surveyors
be informed that the remarks contained ~~merit approval~~
~~for~~ in the Firm's letter of 27th Oct., 1937, regarding the
~~provided~~ mixing steam connections on the main boilers have
been noted & it is considered the Firm's proposal to
blank off the branches on the auxiliary stop valves &
make the mixing steam connections direct to the
boilers merits approval.

Further, in view of the short time available for
the Firm to obtain ~~a suitable~~ valves having a straight
inlet branches, the Firm's proposal to connect the
existing mixing steam valves to the boiler shells by means
of cast steel bends of strong & rigid construction is
considered satisfactory.

Return plans(2) The plan, Tracing N^o 13432, showing the
proposed amendments also merits approval.
