Dear Sirs,

Nos. 1580 & 1582.

The general service pump on each of the above ships  
is to be arranged to draw from the sea, bilges, ballast tanks,  
feed tanks, filter tanks and boiler bottom, and to discharge to  
the auxiliary condenser, deck, boilers, and overboard.

As the pump can both draw from the bilges and discharge  
to the boilers, we shall be glad to receive, as soon as possible,  
your approval of this arrangement.

Yours faithfully,

For SWAN, HUNTER, & WIGHAM RICHARDSON, Limited.
