2 Enclosures.

Sir,

I beg respectfully to forward herewith for the consideration of the Committee a letter received from Messrs Wm. Hamilton & Co having reference to the three long links for attachment to stockless anchor in the case of their S.S. No. 232, now building. ^{270-2 5/16}

It appears these links have been supplied to work with a 2 1/4" cable instead of a 2 3/8" cable as required for this vessel, ^{2 5/16} but on perusal of the Makers' statement quoted by the Builders, I am of opinion the links as supplied may receive the favourable consideration of the Committee.

The approved mid section is enclosed for reference.

I am, Sir,

Your obedient servant,

J. Amos Craig

The Secretary,
LONDON.
