14th APRIL 1910

SAT. 16 APL 1910

JAMES BARCLAY

attend at the works of Messrs Humber Brass & Copper Co, Hull, on the 8th April 1910, for the purpose of selecting a test piece from a solid drawn copper pipe, afterwards attended to witness the testing of pipe by hydraulic pressure to two hundred and sixty pounds per square inch, and the flattening till sides met of the test pieces.

Both tests were satisfactory.

The pipe which is fitted with brass flanges brazed on, is four inches inside diameter, by six gauge thick and is intended for Messrs Crabtree's No.404 Engines, is marked J.B. on flanges and pipe, and has been sent to Great Yarmouth.
