| Stream " <i>ex stock</i>                            | 20         | 2        | 0        | 19         | 3        | 4         |
| Kedge "   | 9          | 0        | 0        | 8          | 3        | 25        |
| Total weight of anchors.                            | <u>236</u> | <u>2</u> | <u>0</u> | <u>238</u> | <u>3</u> | <u>14</u> |

## NO.37

|   |            |          |          |            |          |           |
|---|------------|----------|----------|------------|----------|-----------|
| Collective weight of Bower Anchors <i>stockless</i> | 207        | 0        | 0        | 210        | 0        | 7         |
| Stream " <i>ex stock</i>                            | 20         | 2        | 0        | 19         | 1        | 1         |
| Kedge "   | 9          | 0        | 0        | 9          | 1        | 2         |
| Total weight of anchors.                            | <u>236</u> | <u>2</u> | <u>0</u> | <u>238</u> | <u>2</u> | <u>10</u> |

The Surveyor states that the anchors were ordered a long time ago in Czeco-Slovakia, and have just been delivered.

It will be observed that the weights of the stream and kedge anchors are in each case less than required by Rule *except for the Kedge anchor in No 37* but that the total weight of anchors supplied is in excess of the Rule requirements.

In the circumstances the case is submitted for the favourable consideration of the Committee.
