Ufficio comune

Trieste, 17th December, 1919.

Via della Borsa 2.

Dear Sir,

Per subsequent letters

The approved weights of the stream and kedge anchors of Messrs Cantiere San Rocco, S.A. ships Nos. 35, 36 & 37 are ²⁰⁻¹25 $\frac{1}{2}$ and 9 Cwts respectively. These anchors have been ordered a long time ago in Czecho-Slovakia and have been delivered only now, the weights however are somewhat less than the approved weights, viz: 19.0.13, 19.3.4, 19.1.1 for the stream anchors and 8.3.12, 8.3.25 and 9.1.2 for the kedge anchors.

Before accepting the anchors the builders would like to know, if they could be approved on this particular instance.

I am, Dear Sir,

Yours faithfully,

Assolombardi
Surveyor.

The Secretary,
Trieste.
