General Observations, Opinion as to Class, Recommendation, &c.:—

State clearly whether any and, if so, what alteration is suggested to be made in the existing classification of this survey, thus for example:—“.....to remain as now classed in the Register Book without fresh record of Survey,” “to remain as classed and to have record of survey, 1,1,1” or “to remain as classed and to have record of survey, 1,1,1, and the notations of ss No. 1-11 and ptnd11, &c.”

The vessel is now in a good and efficient condition and she

is eligible in my opinion to be continued as classed with

fresh record of survey 6-15
