

Translation of Boulogne Report No.64 on the S.S."CANADA".

-----:::--ooOoo--:::-----

Annual Survey.

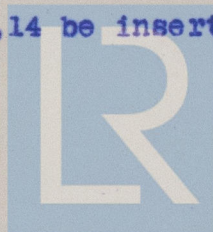

The vessel has been examined externally on the slipway. The plating, the stem, the keel, the sternbush, and the rudder, are in good condition.

The masts and rigging, seen from deck, have been found good.

The hatches and the <sup>hids</sup>~~plugs~~ of the coal bunkers are in good condition.

RECOMMENDATION.

The vessel is, in my opinion, in good condition. I suggest that the Notation 5,14 be inserted in the Register Book.
