

Mr. 21.5.09

Ames.

2 plans (copies)

(2 retained).

Irvine's S.B. T.H. Co's L.S. No. 169 (Broomhill)

It is submitted the Harthepool Surveyors should be requested to remind the builders of the S.S. Broomhill that the midship section sketch as submitted by them showed that ceiling was to be fitted on the tank top under hatches only, and the sketch was approved with this arrangement.

The proposal now made to dispense with such ceiling can only be approved with the owners consent and the surveyors should satisfy themselves that the owners are agreeable thereto.
