The remarks of the Chief Ship Surveyor are desired on this case for the consideration of the Classing Committee.

("The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

Remarks of Survey \_\_\_\_\_

FIRST ENTRY.

It is submitted that before this case receives the consideration of the Committee the Hull Surveyors should be informed that this vessel is proceeding to their port for the purpose of receiving her engines and boilers, and that to complete the survey for classification the engine and boiler casings and work left loose for shipping the machinery requires to be riveted up, the downton pump seating riveted up and this pump tested and the watertight door to the tunnel to be tested.

They should therefore be requested to give the case the necessary attention and on completion of the work to their satisfaction, forward a report on form No.8 with a view to the classification of the vessel.
