Dear Sirs,

M. I return herewith Mr. Munro's First Entry report No.70065 on the Single Screw Steamer "CROXTETH HALL", together with the approved sketch of Midship Section and Profile, and I shall be obliged if he will state whether he is correct in reporting that the watertight bulkhead on frame No.83 extends to the Second deck only.

At the same time I have to draw Mr. Munro's attention to the note in ink on the Midship Section as regards the proportions of the vessel to the Upper deck clear of Bridge.

I am, Dear Sirs,

Yours faithfully,

Secretary.
